

TRINITY CHRISTIAN

Plan for Re-Opening

Trinity administration has been working diligently to develop a re-opening plan that allows for flexibility, transparency and prioritizes the health and safety of our `ohana. We are working towards a "soft" opening during the summer so that we are prepared to welcome the rest of the `ohana in August.

Campus Learning

Trinity is preparing for on-campus learning this August. We will follow specific health precautions in accordance with our local requirements. Specific decisions and plans in regards to campus modifications will be finalized over the next two months.

Drop-off and pick-up times will *likely* remain the same, although staggered times *may* be considered

Athletics will be determined by our athletic leagues and we will abide by their recommendations and requirements

After school will likely be offered for Preschool—6th grade, although after school electives will not

Preparing for Interruptions

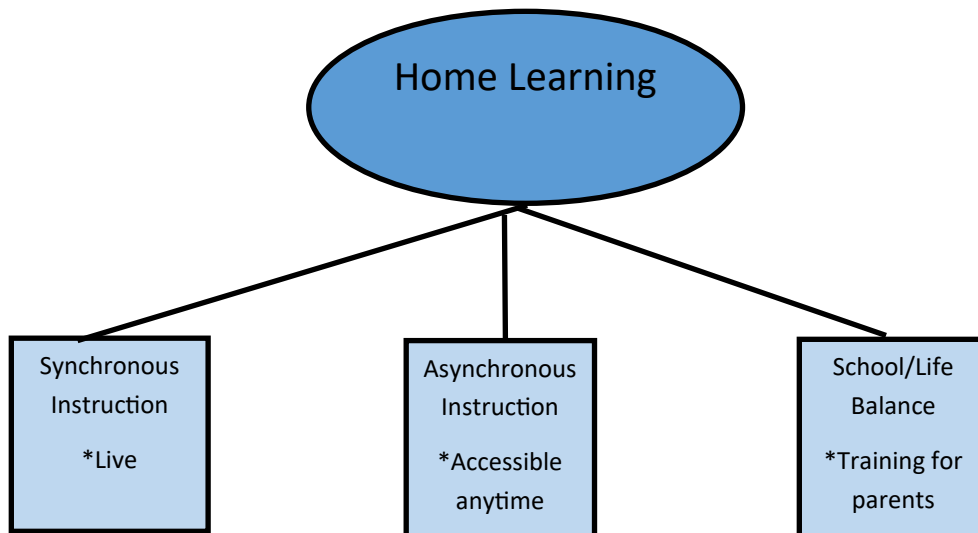

Following trends from past pandemics, Trinity is preparing for waves of interruption to on-campus learning. In the event our local community experiences a spike in COVID-19 cases and an interruption of physical operations occurs, a shift to home learning may happen immediately.

If the physical campus closes and Trinity transitions to home learning, families will be extended credit towards fees coinciding with being on campus (lunch, before and after school).

Home Learning

Home learning does not change our mission of providing a quality Christian classical education.
Home learning leans heavily upon the partnership between school and parents.

We are working at refining our Home Learning Program to make it more robust and seamless in the event we are forced to transition to Home Learning.

Digital Platforms

Physical Campus

While specific decisions will be finalized during June and July and our “soft opening” of summer school, strategies are being developed in conjunction with health care professionals, HAIS, DHS (Department of Human Services) and the DOH in the following areas including but not limited to:

Health screening and testing for students, faculty, staff and outside vendors

Room/space capacity limits to allow for physical distancing

Modification of programs and events in compliance with limits on crowd size and physical distancing measures

Continued development of online platforms and curricula in the event of moving to home learning or a hybrid approach to keep students and faculty safe

The potential use of masks during classes and in public gathering spaces

Sanitizing and cleaning processes

Changes to campus access for visitor and parents

Refresher Courses

We are planning for refresher courses the week of July 27-31 in subjects such as Spalding, math, and Latin.

Stay tuned for more information regarding grade level, time, and cost.

Contact Us

Transparency and open communication is of the utmost importance and we want to encourage you to contact our team if you have any questions or concerns about how we are partnering with your family. Trinity is here to not only provide an education for your student but also to provide a Christian community for your `ohana.
